Driver's License and Insurance Certification

I certify that I am in possession of a valid driver's license and that the vehicle I am driving is insured. If my driver's license becomes invalid or my insurance coverage ceases, I will notify the Main Office secretary immediately and refrain from transporting other students to/from school or school events until both issues are resolved. This form will be resubmitted once a valid driver's license or insurance is available to the Main Office secretary to keep on file for the duration of the current school year.

I also understand that my insurance will provide the primary coverage for all occupants in the vehicle.
