

Dear Parents and Guardians,

Just a brief update this week.

I wish that this April Fool's Day would have started like a normal one, children trying to prank or fool their family then coming to school to try to do the same to their teacher and classmates. As with everything else today we experience April 1st in a different way but it still is a day to give thanks and praise and lift up personal intentions as we trust God's plan once again.

We implemented our hybrid educational program of online/digital school along with textbooks, workbooks and packets this week. Mahalo to all of you, your children and our SAS staff as we are still open but in a different way. Patience, prayers and persistence will get us through, and we all are learning together along the way.

We also share with you in this weeks eblast some additional event cancelations. We are sad about these decisions but completely understand that they needed to be done. Times like these generate creative opportunities and we are seeing that through our teachers, students and community. We remain hopeful that we will find alternative ways to connect with alumni even if it is not on Sullivan Field, in Las Vegas or on the golf course. Stay tuned as we will update you when innovation becomes reality.

Prayers of love and hope for you and your family. Everyone is impacted by this situation and we appreciate your pain and challenges. Look for updates from SAS regarding our planning and response to COVID- 19 and continue to hope, have faith and believe that, no matter what, we will come out of this. Even if it means things are done in a different way.

As always, God Bless!
