

April 29, 2020

Dear Parents and Guardians,

Blessings to you and your families! As we finish the month of April, I wanted to give you an update on a few items:

Our K through 12 teachers continue to meet, collaborate and map out activities for your children. They appreciate your feedback and support and respect the time and effort this requires of you. Please email your child's teacher directly if you have any questions or are simply feeling overwhelmed. They care and will support you and your individual family needs.

Staff and parent meetings are ongoing via Zoom. We are connecting with each other as building staff and we have been reaching out to you as parents. Please remember that if you are unable to participate in a Zoom meeting that your voice matters. Please email or call the main office if you have any questions or thoughts.

As we enter the month of May, we are looking at opportunities to connect even more. We hope to be able to provide some on-campus activities, with safety measures included, near the end of the month or during the first week of June. We also are hopeful that some summer school services will be allowed sometime in June and/or July too. Stay tuned for updates.

Lastly, we continue to work on plans for our K-12 program for next school year. We all hope and pray for classes to start at the beginning of the year. We also know we must continue to be innovative and engaging so when students return, they will succeed. For example, our high school program has some exciting and new plans that provide more schedule and class options, opportunities and supports for all learners ... including the start of an E-sports program.

We will make it through these challenging times, we miss seeing you and your children and we pray each day for hope, blessings and peace.

God bless,

Tim Cullen, Head of School and Principal
